

# DUAL OUTPUT POWERED DRIVE

All models feature 36" of total lift – 18" screw travel, drop legs provide 18" of additional travel.

Integrated spring-loaded pull pins with unique hold-open feature on 8000 lb. and 10,000 lb. static capacity models.

## FIFTH WHEEL LANDING GEAR

S Y S T E M S

**CAPITALIZE ON THE INDUSTRY-LEADING PERFORMANCE OF BULLDOG SQUARE JACKS, KNOWN WORLDWIDE FOR UNMATCHED STRENGTH, DURABILITY, AND SIDE LOAD.**

### Dual Output Powered Drive

The only Fifth Wheel Landing Gear system featuring:

- Heavy duty integrated die-cast gearbox, which eliminates the need for an intermediate plastic gearbox.
- Dual outputs for high speed or high torque applications.
- Installation in high speed position results in lifting speeds twice as fast as the competition (9" per minute).

PART NUMBER	STATIC CAPACITY <i>(in pounds)</i>	POWERED LIFT CAPACITY <i>(in pounds)</i>	MOTORS & SWITCHES
500170** (a)	10,000	7,000	2
500161** (b)	10,000	10,000	2

(a) Installed in the high speed position.  
 (b) Installed in the high torque position.  
 \*\* Includes Motors, Dual Switch Panel, and Wiring Harnesses.  
 Motors come factory assembled to jacks.

Includes (4) mounting brackets & (4) sets of mounting hardware.
